TABITHA

Seven-year-old Tabitha Templeton is the oldest of Tim and Carol's two daughters. Super-smart and very serious, she idolizes her successful Uncle Ted and has big ambitions for her life. She'd rather curl up with her math homework than play make-believe with her dad, who worries that she's missing out on her own childhood.

Can you help Boss Baby count his money?
Add up the individual coins in each row to get each total,
then add the 5 totals together to find out the grand total.

$$50¢ + 20¢ + 10¢ + 10¢ + 5¢ + 5¢ = \$....$$

$$50¢ + 50¢ + 20¢ + 10¢ + 10¢ + 5¢ = \$....$$

$$50¢ + 20¢ + 50¢ + 20¢ + 20¢ + 50¢ = \$....$$

$$50¢ + 50¢ + 50¢ + 5¢ + 10¢ + 5¢ = \$....$$

$$20¢ + 50¢ + 50¢ + 50¢ + 10¢ + 20¢ = \$....$$

$$\text{Grand total} = \$....$$

ANSWERS

\$1.00, \$1.45, \$1.70, \$2.10, \$2.00, Grand Total \$8.25
