\*When introducing a new food to your animal's diet, it is always best to call your veterinarian first. Be careful to start with small quantities, and watch your animal for any changes in behavior or digestive issues. If you notice anything odd, stop giving the food to your animal and consult with your veterinarian.

## MAKE A CAMPFIRE OF YOUR VERY OWN!

Nothing beats sitting with your friends, telling stories, singing songs and eating snacks around a campfire.

## WHAT YOU'LL NEED

- Tissue paper in red, orange, yellow and dark blue
- One balloon Safety scissors White glue and hot glue
- Fake candle Soft paintbrush or sponge Water

- Cut the tissue paper into small pieces and keep the colors separate.
- Blow up the balloon but don't make it too big, just enough to hold shape and tie off the end.
- Stir together half a cup of water and half a cup of white glue.
- Use the plastic bowl to keep the balloon in place tied-end down and use the sponge to carefully apply paste on the balloon and add tissue paper. Make sure you leave an opening at the top.
- Let the paper and glue dry to balloon for 24 hours.
- Arrange popsicle sticks in a circle (wreath) and attach corners with glue.
- Have an adult carefully pop the balloon. Remove the balloon and reshape.
- Glue the fire to the wreath, add a light and enjoy your own campfire with friends.

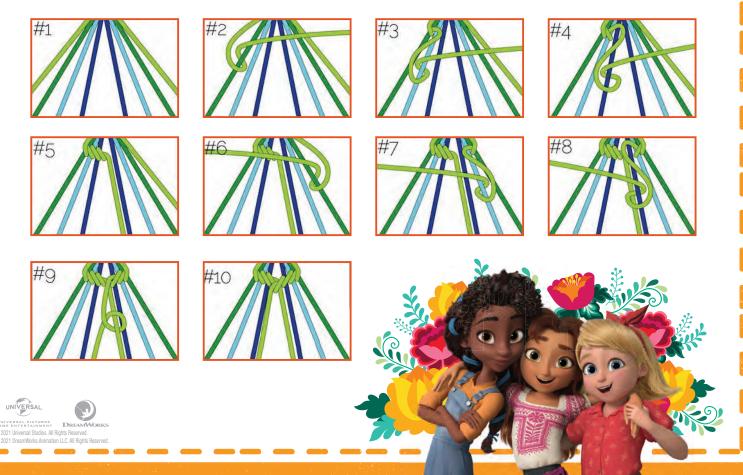

## CREATE YOUR OWN FRIENDSHIP BRACELET!

WHAT YOU'LL NEED
© Embroidery floss, thread or yarn 
Pins or tape

- To make a typical bracelet you'll want at least 6 strands (the one shown above used 12) that are at least 30 inches long, based on using embroidery floss. The wider your bracelet the longer each strand should be, and different kinds of thread/yarn will affect your yardage needs.
- Friendship bracelets are really made up of lots of half hitch knots. To properly form the chevron you need to divide the strands in half and make sure the color pattern is symmetrical. Another color arrangement will result in a different pattern.
- Pin or tape your strings down to something sturdy.
- Start at the left, knotting once over each strand until you reach the center. That strand now joins the right side group.
- Now start at the right, knotting once over each strand until you reach the center (including the strand from the left side group,) and that strand now joins the left group.
- Repeat until the bracelet is long enough, then braid out the ends.
