MAKE A CAMPFIRE OF YOUR VERY OWN!

Nothing beats sitting with your friends, telling stories, singing songs and eating snacks around a campfire.

WHAT YOU'LL NEED

- Tissue paper in red, orange, yellow and dark blue
- One balloon
- Safety scissors
- White glue and hot glue
- Fake candle
- Soft paintbrush or sponge
- Water
- Popsicle sticks
- A plastic bowl

INSTRUCTIONS

- Cut the tissue paper into small pieces and keep the colors separate.
- Blow up the balloon but don't make it too big, just enough to hold shape and tie off the end.
- Stir together half a cup of water and half a cup of white glue.
- Use the plastic bowl to keep the balloon in place tied-end down and use the sponge to carefully apply paste on the balloon and add tissue paper. Make sure you leave an opening at the top.
- Let the paper and glue dry to balloon for 24 hours.
- Arrange popsicle sticks in a circle (wreath) and attach corners with glue.
- Have an adult carefully pop the balloon. Remove the balloon and reshape.
- Glue the fire to the wreath, add a light and enjoy your own campfire with friends.

CREATE YOUR OWN FRIENDSHIP BRACELET!

WHAT YOU'LL NEED

- Embroidery floss, thread or yarn
- Pins or tape

INSTRUCTIONS

- To make a typical bracelet you'll want at least 6 strands (the one shown above used 12) that are at least 30 inches long, based on using embroidery floss. The wider your bracelet the longer each strand should be, and different kinds of thread/yarn will affect your yardage needs.
- Friendship bracelets are really made up of lots of half hitch knots. To properly form the chevron you need to divide the strands in half and make sure the color pattern is symmetrical. Another color arrangement will result in a different pattern.
- Pin or tape your strings down to something sturdy.
- Start at the left, knotting once over each strand until you reach the center. That strand now joins the right side group.
- Now start at the right, knotting once over each strand until you reach the center (including the strand from the left side group,) and that strand now joins the left group.
- Repeat until the bracelet is long enough, then braid out the ends.

MAKE SHADOW PUPPETS

Tell your own Spirit story using the shadow puppets you create!

WHAT YOU'LL NEED

- A white sheet and flashlight
- Thick black paper • Safety scissors • Glue, hot glue or tape
- Pencil • Chop sticks • Small brass brads

INSTRUCTIONS

- Trace your shape on the card stock in pencil then use safety scissors to cut them out. Add as much detail as you want!
- Attach a chopstick to the back with hot glue or tape.
- Hang up the sheet and point the flashlight at it.
- Create your own shadow puppet story.

*If you wanna get really fancy, you can create a running Spirit!
Just follow these steps:*

- Cut your paper into 4 shapes. The head & neck, front legs & body and the back legs.
- Attach each section with the brass brads.
- Attach chopsticks to the back with hot glue. One on the head and one on the back legs.
- Practice making Spirit run!
- SEE SHAPE EXAMPLES IN NEXT PAGE!

MAKE YOUR OWN UKULELE

If you love singing, there's no better instrument to sing-along with than a ukulele!

Adult assistance and supervision required. These instructions contain steps that could be dangerous or difficult for children.

WHAT YOU'LL NEED

- A thin box
- String, dental floss or thread
- A cardboard tube
- Safety scissors
- Glue
- 4 bolts with nuts
- Crayons or markers
- Hole puncher
- Piece of paper
- Decorations

INSTRUCTIONS

- Draw a circle on the center front of the box towards the bottom and cut out the circle.
- Cut a line in the center of the box top and fold over.
- Glue the tube into the box top opening and draw 5 horizontal lines on the tube to create your frets.
- Poke 4 small holes in the box below the center hole.
- Poke 2 small holes on each side of the top of the tube, insert the screws in each hole in the tube and secure them with the nut. These are your tuners.
- Knot one end of your string, run it through the bottom holes of your ukulele, up to your frets and securely tie it to one of the bolts outside of the tube. Repeat this with the other three holes and string. You can carefully rotate the screws to tune your sound.
- Fold a piece of paper into a triangle. Glue the triangular piece of paper onto the box under the strings for the saddle.
- Decorate it to make it your very own!
